

2022 Wisconsin Wing Summer Encampment

The Babbling Badger

Sunday, June 26th, 2022

Day 1: We're Off To The Races

Recap:

Today, the encampment had its first full day of scheduled activities. The day started early as Wisconsin Basic School, Cadet Development Course, and Wisconsin Cadet Academy engaged in their first official PT of the Encampment! Additionally, The first team leadership scenarios have been conducted. These scenarios challenge students to problem solve by thinking outside the box. Teamwork is starting to take shape amongst the students as we continue through the week.

Wisconsin Basic School:

Basic School students learned the importance of teamwork through today's barracks inspections, classes, and evening team sports. They also began to learn more about themselves as members of one team rather than individuals.

Cadet Development Course:

Today, returning students began diving into the Civil Air Patrol model rocketry program in order to enrich their wealth of aerospace knowledge. Additionally, the cadets began developing a base layer of tactical leadership styles as future Cadet NCOs in their home squadrons.

Wisconsin Cadet Academy:

Candidates began to improve their tactical leadership skills through continued intensive leadership scenarios. This includes learning the full responsibility of a direct leader by leading their peers throughout the week.
