Day 4: Time to Buzz the Tower!

Recap:

Now that Wisconsin Wing Summer Encampment is halfway through, preparation for graduation is underway! Cadets across the three schools started heavy preparation for graduation while still exploring the various opportunities and connections Civil Air Patrol provides to specific career fields. On another note, countless aircraft such as C-130s from Minneapolis, Minnesota and an F-16 from Madison, Wisconsin surprised the students as they flew by!

Wisconsin Basic School:

An exciting day was in store for Wisconsin Basic School! A KC-135 from the 128th Air Refueling Wing stopped by for a quick tour, Squadron 2 got to experience the excitement of the High-Risk Entry Facility, and Air Traffic Control tower tours happened. Today was also used to fine tune drill techniques for graduation coming up this Saturday.

Cadet Development Course:

Cadet Development Course also got the chance to experience the High-Risk Entry Facility. However, most of the day was spent practicing drill commands. This was both to practice for graduation and to help the students brush up their teaching skills as direct leaders

Wisconsin Cadet Academy:

Candidates are beginning to finalize preparations for their Briefing Project as Friday comes closer. Drill practice is also being tweaked as graduation nears. Correction of small mistakes now will teach the candidates about the importance of attention to detail.

Tomorrow's Weather

CLOUDY

HIGH: 86, LOW: 59, WIND: 13 MPH, HUMIDITY: 55%
