

# WISCONSIN WING 2024 ENCAMPMENT NEWSLETTER

Day 4  
7/3/2024

## Highlight of the Day: High Risk Entry Facility

Insight into exciting careers is part of how Civil Air Patrol shapes future American leaders, and today's look into how United States Air Force Security Forces train at the High Risk Entry Facility. Subject matter experts inspired cadets to pursue fulfilling careers as they have been throughout the duration of encampment. Upon graduation, cadets will be eligible to explore careers at National Cadet Special Activities, an opportunity they should take full advantage of.

## Student Wakeup: Hit the Wall!

Encampment is an event with a military style structure. This affects everything, including wake up. The high intensity wake up procedure first thing in the morning sets the mood and expectations for the day, and it also helps students learn to deal with the high stress that they will be experiencing throughout the week. At 0530 sharp, students are made to wake up and "hit the wall" by their flight cadre.

### Encampment Media

There's only so much we can fit into one newsletter, try as we might, so the photos you may be looking out for might not make it into a newsletter. Despite this, you can be assured that the Public Affairs team will capture that picture you are looking for of your cadet. Scan this QR code for the links to all our social media!
